Orrery Vantage Systems GmbH

Predictive maintenance for industrial fleets

Series B investor presentation

SYNTHETIC DEMO DECK for software testing only. This company does not exist.

THE PROBLEM

Unplanned downtime is expensive

- Fleet operators lose millions to unexpected machine failures

- Scheduled maintenance wastes parts and technician time

THE SOLUTION

Predict failures before they happen

- Sensors and machine learning flag faults weeks in advance

- Maintenance teams get a ranked, plain-language work list

Who we are

- Founded in 2019

- Headquartered in Munich, Germany

- Founded by Lena Hartmann and Tobias Brandt

SYNTHETIC DEMO DECK for software testing only. This company does not exist.
